TESTIMONIALS

RENAE JENSEN

I thank you for the blessings you've brought to my home. I enjoyed the process and it is helping me to clarify a few things. I had no idea I was still carrying around anger -- I believe I've released it all now -- I was finally ready. I also didn't realize how scared I was when I moved into that house. I thought at the time I was the great adventurer - ha! I'm now settled and quite comfortable. The key to nowhere is now somewhere else. I symbolically threw it into the trash. No dead people are in the bedroom and I'm looking forward to the future in a more positive frame of mind.

With a grateful heart, *Linda*

I'm amazed at how thorough you are. We did some of the recommendations that you gave us the day you visited, like clean the men's bathroom, the junk in the helpful people area was moved out, the front door is fixed, signs are up and that same week I noticed some changes around here. For one thing, we got very busy! The jobs just came pouring in! Even my own attitude is starting to change, I feel optimistic for a change.

It was a pleasure meeting you, I'm so glad I did, and I'm very excited to get things going around here. I'll keep you posted on anymore changes around here.

THANK YOU, *Linda*

What a fabulous resume you have!! But they forgot to mention that you are a beautiful person as well!!! We enjoy the results of your work every day. *Mickey*

Class was amazing, You put so much love and beauty in the details. I am so grateful. *Dona Hoagland*

I believe everything in our lives happens for a reason and I was meant to be in your class today. The class was priceless & educational but meeting you was my purpose. *Susan G*

I cannot say enough about what Renae does. I use her on probably 95% of the homes I list. I continually refer her to my colleagues as she has a very special way of helping to get the homes sold by doing as little as moving a few items in the house to having it staged with one's own items to vacant houses that she will stage for you. It's amazing what a difference it makes when she comes in. There are times when a house doesn't sell right away and I have called her to check in on the house and find out what's blocking it. Sometimes it's just a reluctance on the part of one party or a ghost that doesn't want to welcome the new buyer. The stories I could tell you would make your hair stand on end as to what it takes sometimes for A HOUSE TO SELL. I wouldn't be as successful without her services and now I have clients ask if she can look at a house before they buy a new one just to make sure everything about it will make for a happy, healthy and wealthy home life.

“Mary Dennis will give you the tools to change your business and your life. I have been in the Pure Romance business for 10 years when I was invited to a leadership training in December where I met Mary Dennis. When you leave her training, you will feel empowered and see the possibilities that are your future. My business and life have all changed for the better! Not only is my personal business improving but my ability to communicate with my team has helped me to help them. We added 17 women to our team in the first two months of the year! Mary Dennis is a true blessing!” *Desiree Snowdon. Pure Romance Director*

Mary Dennis' Fundamental Feng Shui class was wonderful. She was able to simplify the concept and explain the many elements Feng Shui entails. Such a worthwhile class, especially for the nature of my business.

CONSCIOUS DESIGN INSTITUTE

The Conscious Design Institute offers a place of community and connection. We all learn from guidance, and benefit when we share our experiences. It is time to learn how to consciously design an empowered life. It is time to return to a knowledge that has been lost, to reclaim our power, and to heal and honor the earth that we call home.

The ancient art of Feng Shui forms a strong foundation for intelligent transformational space analysis; designed with the backbone of good design, and built with the “healthy” materials that benefit man and the earth.

Conscious Design invites us to regroup, reconnect and revisit our concept of space. Our buildings are not separate from us, nor are they a mirror. Our space is an extended layer of us, an integral and interactive part of our lives. Our buildings are our landscape, and responsible design and building will allow positive change to unfold.

The Conscious Design Institute offers training and certifications that build upon each other to create a mastery of healthy living. Certifications in Feng Shui, Space Clearing, Green Design, Sacred Geometry, Intentional Design and Conscious Language are components of Conscious Design Mastery.
